

IV. Useful and Favorite Web Sites of some of our Members

- ❖ www.districtx.org Our Terrific District X Web Site
- ❖ www.provenwinners.com Sign up for their e-newsletter
- ❖ www.sideplanting.com Pamela Crawford's container gardening
- ❖ www.homedepot.com Go to this site and ask for coupons and e-newsletter
- ❖ www.plantatlas.usf.edu/about.asp

This is a great site for researching botanical information. Click on List or Browse or Search to identify plants. Try entering croton into the search and you'll see a listing of varieties. You can click on the photo icon for pictures on some plants.

- ❖ www.aifd.org/index.htm This is the website for the American Institute of Floral Designers.
- ❖ <http://fawn.ifas.ufl.edu/graph/>

This weather site lets you determine how much rain has fallen and how cold it was in the past day or days. You select the station in your area, the parameter (rainfall, temp.), and the range (24 hr, 3 days) and it charts the info for your area.

- ❖ <http://www.wunderground.com/radar/>

This page is excellent to determine current rainfall conditions. Don't know how to truncate the lengthy web address.

http://stlucie.ifas.ufl.edu/lawn_and_garden.html

The County Extension Service site has terrific links. The Lawn and Garden page leads to other pages, each with lists of resources at the bottom. Each county will have similar pages.

www.moiragehringgardens.com

Moira Gehring is a graduate of Brown University and runs a landscaping operation. The website gives garden tips and in the spring she does container gardening workshops in Vermont.

Below is a list of useful website links that are recommended to the Master Gardeners.

<http://stlucie.ifas.ufl.edu> This is the Extension website where you can access the Master Gardener's page.

<http://hort.ifas.ufl.edu> Useful links include; Extension site, Info center, Gardening in a minute link

<http://floridayards.org> Interactive yard link - Florida friendly database

<http://hort.ufl.edu/fyn/> Florida yards and neighborhoods site

<http://creatures.ifas.ufl.edu> Great website for insect identification

<http://www.fleppc.org/> Florida exotic pest plant council

<http://fruitscapes.ifas.ufl.edu> Focuses on growing temperate, subtropical and tropical fruits in the home landscape

www.google.com 2 of the best search engines on the Internet.
www.ask.com Just key in any word, phrase or question.

<http://edis.ifas.ufl.edu> Electronic Data Information Source of UF/IFAS Extension (online publications)

<http://insects.org/> and <http://www.whatsthatbug.com/> Useful website to find out about insects

http://edis.ifas.ufl.edu/TOPIC_GUIDE_IG_Household_Pests_and_Pests_of_Man

Useful EDIS list of publications on household pests

<http://www.eatbug.com/> Fun edible bugs site!

V. Useful Books on Gardening/Flower Design, etc.
